**SCOUTING REPORT ON ROY STEVENS:** Roy was seventh in scoring this past season (07-08) while playing both offense and defense. He also led in penalty minutes with 290 minutes. He is a very strong skater who is in tremendous athletic shape. He plays bigger than his size and will give you everything he has every shift. He plays neutral, defensive, and offensive hockey very well and understands systems and learns systems very fast. He played forward half of the season and defense the other half. He is a team guy and looks out for his players. Roy has a very good shot and isn't afraid to get in front of one either. He adapts to change very well and is very intelligent on and off the ice. He is very mature for his age and would do well with any system a coach throws his way. I can't say enough about his movement, forward, backward, and laterally. He is very quick and has a ton of stamina and can give any team plenty of ice time. Roy is a great person and hockey player which you can't say about a lot of kids.
